

600th Post and Mobile Version

Adrian Kosmaczewski

2009-03-29

This is the 600th post in this blog! It all started with this post written in the airport of Buenos Aires, coming back to Switzerland. And the news of the day is that, thanks to Donncha O Caoimh, the new WordPress Super Cache plugin now works with MobilePress, which officially enables a mobile version of this site.

Thanks to all of you who visit this blog (you're over 6'000 every month!), to all of you who've left 563 comments (no mention of the 28,304 spam comments caught by Akismet) and I hope that my writing will still be of interest to all of you in the years to come.
