

Announcing the swissinfo iPhone Application!

Adrian Kosmaczewski

2011-09-28

We are thrilled to announce the general availability of version 2.0 of the swissinfo application¹, this time bundled as a Universal Application, including an iPhone version together with the iPad version!

2

This app includes articles, high quality videos, audio slideshows, podcasts and galleries from the Swiss Broadcasting Corporation. Designed for maximum comfort, the app also includes a weekly review to keep in touch with the essential Swiss news.

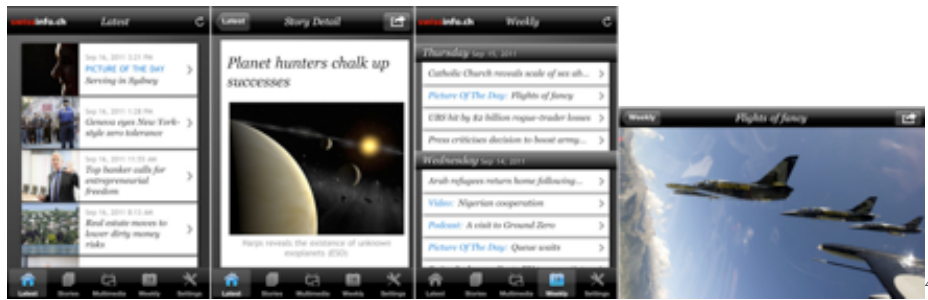

This Swiss Broadcasting Corporation application is available in 9 languages: English, Chinese, Arabic, Japanese, Spanish, Portuguese, French, German and Italian.

Check it out on the App Store!³
