

# Geneva Techdays 2006 Powerpoint Slides

Adrian Kosmaczewski

2006-05-01

Well the PowerPoint slides that I used during the TechDays 2006 conference have been published in the TechDays page<sup>1</sup>. You can download them from this site as well:

- A204 - SharePoint Workflow<sup>2</sup> (zipped, 6.5 MB)
- D308 - LINQ<sup>3</sup> (zipped, 6.7 MB)

BTW, they are in French... and yes, the slide with Maradona on it is maybe the most important of them all :))
