

# Kevin Smith iPhone Application

Adrian Kosmaczewski

2009-12-23

I've just been notified by the nice guys from DenVog<sup>1</sup> that the Kevin Smith iPhone application<sup>2</sup> includes code from my Asynchronous UITableView sample<sup>3</sup>, posted earlier this year. The app also features the MGTwitterEngine from Matt Gemmell<sup>4</sup>, too.

Thanks for the credits guys! I'm glad my code has been helpful to you.
