

# Making of digital2.0

Adrian Kosmaczewski

2010-07-10

This is the video<sup>1</sup> shot by the amazing team of VPS prod<sup>2</sup> while we were working on the application. There was always a camera rolling during our meetings and even during our work sessions! The final result is simply outstanding and we are very happy to release it in public.

The videos included in the digital2.0<sup>3</sup> application are available in HD format from YouTube<sup>4</sup> and from Vimeo<sup>5</sup>. Check them out!
