

This week: Mobilism 2012 Amsterdam

Adrian Kosmaczewski

2012-05-07

This week we are very happy to announce that will be attending the 2012 edition of Mobilism Amsterdam¹ organized by Peter-Paul Koch (of QuirksMode² fame), Krijn Hoetmer and Stephen Hay!

From the Mobilism site:

Mobile is becoming increasingly important to web designers and developers because users expect a site to work on their phones. Simultaneously, the web is becoming increasingly important to the mobile world because it is the only way to deploy an application to any phone.

Nowadays most web conferences feature a mobile session, and most mobile conferences a web session. The obvious next step is Mobilism: a conference wholly dedicated to mobile web design and development.

Just like in 2011 we'll invite some of the best speakers⁴ from the web development and the mobile world to guide you through the confusing jumble of platforms, screen sizes, and browsers that is the mobile ecosystem.

Check out the list of speakers⁵: Horace Dediu, James Pearce, Remy Sharp, Jeremy Keith, Brian LeRoux and more!

If you are around⁶ let's meet and talk about the mobile web.
