

# This week: QCon London 2012!

Adrian Kosmaczewski

2012-03-05

This week, akosma software will be in London hosting the Cross-Platform Mobile Track<sup>1</sup> of QCon London 2012<sup>2</sup>! This year we have great speakers talking about how to create mobile applications using HTML5, JavaScript and CSS3:

- Maximiliano Firtman<sup>4</sup>, the worldwide expert on mobile web application development, will talk about Mobile, HTML5 and the cross-platform promise<sup>5</sup>.
- Jérôme Giraud<sup>6</sup>, creator of the Wink Toolkit<sup>7</sup> will present his creation in the talk Wink and the mobile web innovation<sup>8</sup>.
- Andrea Giammarchi<sup>9</sup> from Nokia<sup>10</sup> will talk about Location aware mobile web apps with HTML5 and JavaScript<sup>11</sup>.
- Tobie Langel<sup>12</sup> from Facebook<sup>13</sup> will give a yet undisclosed talk about an exciting new technology! Stay tuned for updates!
- Finally, Christophe Coenraets<sup>14</sup> from Adobe<sup>15</sup> will talk about Cross-Platform Mobile Apps with HTML, JavaScript and PhoneGap<sup>16</sup>.

An awesome moment with industry leaders speaking about a hot subject! This
