

# Webtuesday: Mobile App Frameworks

Adrian Kosmaczewski

2009-12-09

I had great fun yesterday at Liip<sup>1</sup>'s offices, during the monthly Webtuesday meeting<sup>2</sup>. The presentation, which consisted in a high-level overview of mobile web application frameworks and platforms, gathered around 20 people, and the conversations and discussions (and the beers) after the talk were great. I hope that everyone enjoyed the evening as much as I did!

These are the slides I used during my presentation. They are released with a Creative Commons Attribution-Noncommercial-Share Alike 2.5 Generic<sup>3</sup> license, so feel free to share them, always with a link back to the original SlideShare URL.
